PROFESSIONAL SUMMARY

Recent graduate with a Bachelor's Degree in Information and Communication Technology Engineering, specializing in Computer Systems, from Tartous University (Class of 2025). Possess a strong foundation in Python programming, web development, Artificial Intelligence fundamentals, and Prompt Engineering. Passionate about learning emerging technologies and applying technical knowledge to solve real-world problems. A fast learner with strong communication, teamwork, and analytical skills. Proficient in Microsoft Office applications and seeking an internship opportunity to gain practical experience and contribute effectively in a professional environment.

EDUCATION

Bachelor of Information and Communication Technology Engineering
Specialization: Computer Systems

Faculty of Information and Communication Technology Engineering
Tartous University – Syria

Graduation Year: 2025

TECHNICAL SKILLS

- Python Programming
- HTML5
- CSS3
- JavaScript
- Front-End Web Development
- Laravel Framework (Basic)
- Artificial Intelligence Fundamentals
- Prompt Engineering
- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint

- Computer Applications
 - Internet Research
 - Git & GitHub (Basic)
 - Devops
-

SOFT SKILLS

- Problem Solving
 - Communication Skills
 - Teamwork
 - Leadership
 - Time Management
 - Adaptability
 - Fast Learning
 - Critical Thinking
 - Analytical Thinking
 - Attention to Detail
-

PROJECTS

Python Programming Projects

- Developed several Python applications to strengthen programming and problem-solving skills.
- Applied Object-Oriented Programming concepts and file handling techniques.

Front-End Web Development Projects

- Designed responsive web pages using HTML, CSS, and JavaScript.
- Focused on clean design, usability, and responsive layouts.

Higher Steps — Syrian Recruitment Platform

Built and deployed a full-stack recruitment platform (React + Node.js + MongoDB) serving 8,500+ job listings. Designed and maintained the production infrastructure on Linux VPS (Debian), including Nginx reverse proxy, SSL automation (Let's Encrypt), automated CI/CD pipelines via GitLab, rate limiting, security hardening, SEO prerendering, real-time monitoring, and zero-downtime deployments using PM2 and Bash scripts.

VOLUNTEER EXPERIENCE

Higher Steps Initiative Volunteer | 2024

- Organized youth activities and educational discussions.
 - Collaborated with volunteer teams to implement community initiatives.
 - Assisted in training and mentoring new volunteers.
 - Strengthened communication, leadership, and teamwork skills.
-

CERTIFICATIONS

- Python Fundamentals – Coursera (2023)
 - Front-End Web Development – Al-Mustashar Educational Institution (2023)
 - Computer Driving License (ICDL) – Edraak (2021)
-

LANGUAGES

- Arabic: Native
 - English: Good
